

**CALL FOR COMPLETION OF THE BUENA PARK RECALL VOTER FRAUD  
INVESTIGATION**

**Whereas,** On November 22, 2019, OC Registrar of Voters Neal Kelley issued a formal statement declaring that the recall petition against Buena Park Council Member Sunny Park had failed due to an insufficient number of valid signatures, and

**Whereas,** An investigation of submitted signatures indicated a shocking 48% of those signatures were invalid, and 32.8% of the signatures submitted did not match voting records leading to the Registrar referring the original petition signatures to the OC District Attorney's office for a fraud investigation, and

**Whereas,** the OC District Attorney specifically vowed to aggressively prosecute any election irregularities, yet he has allowed six (6) months to pass without any public response.

**Therefore, Be It Resolved,** that the Democratic Party of Orange County calls upon O.C. District Attorney Todd Spitzer to issue a public update and projected date of completion of the investigation and,

**Be It Further Resolved,** the Democratic Party of Orange County calls upon immediate prosecution of those accused of undermining the integrity of our voting process.
