

Resolution #17-13

**RESOLUTION OPPOSING THE CREATION OF THE PRESIDENTIAL COMMISSION
ON ELECTION INTEGRITY**

WHEREAS, Donald Trump created a presidential commission on election integrity based on the debunked claim that millions voted illegally in the 2016 election; and

WHEREAS, given the lack of evidence of voter fraud, it is clear the commission's sole purpose is to perpetuate the myth and false claims of voter fraud in order to enact policies that pave the way for new voter restrictions.

THEREFORE BE IT RESOLVED, *that the DPOC reject the false premise on which the Presidential Advisory Commission on Election Integrity is based and support any and all legal measures to stop the commission from collecting voter data; and*

BE IT FURTHER RESOLVED THAT the DPOC, must work toward the enactment of measures making it easier to vote, not building barriers that make it more difficult.
